BELT REPAIR KIT CR-1

Diamond patch and repair strip repair kit has you ready to handle a variety of damage at a moments notice.

BELT REPAIR KIT CR-1

Fabric Reinforced Diamond Patches and Repair Strips

- For the repair of large damaged areas in belt covers.

REMA TIP TOP patches feature a feathered edge to ensure they can stretch evenly in all directions, resulting in a perfect bond and seamless repair. To select the best patch, use the size and shape of the damage area to determine which patch would best cover the damage with a 2-3" shoulder around all edges to provide a good surface area for bonding.

- Fabric reinforcement for damage that includes the ply
- Use with any REMA TIP TOP SC Cement
- CN bonding layer backing ensures a strong, durable bond

DIAMOND PATCHES

- For the repair of large damaged areas in belt covers
- Available with fabric reinforcement for damage that includes the ply
- Use with any REMA TIP TOP SC Cement
- CN bonding layer backing ensures a strong, durable bond

REPAIR STRIP

- For the repair of longitudinal belt cover damage
- Cut to length
- Add additional strips for layer repairs
- Use with any REMA TIP TOP SC Cement
- CN bonding layer backing ensures a strong, durable bond
